

Egemen Inc. is the oldest company of Egemen Group. Egemen Inc was founded in 1994 in İzmir. Egemen is based on dynamic, flexible, and proactive management strategies, with these strategies company has achieved a significant growth with the establishment of production, import and export volume. In 2000's , parallel with changing and evolving world economy Egemen Group, opened manufactory for Vacuum Storage Bag production in 2004. With this product has achieved great momentum in growth.

Egemen Şirketler Grubunun en köklü firması olan Egemen A.Ş. 1994 Yılında İzmir'de kurulmuştur. Egemen dinamik, esnek ve proaktif stratejilere dayanan yönetim modelinin bir sonucu olarak son yıllarda önemli bir büyüme kaydetmiştir. Bu büyüme ile hem ülke ekonomisine katkıda bulunmuş hem de yeni istihdamlar oluşturmuştur. 2000'li yıllar ile değişen ve gelişen dünya ekonomileriyle paralel olarak, Egemen A.Ş. büyük hacimli tekstil ürünlerinin küçük hacimlerle muhafaza edilmesi fikrini yani vakumlu poşeti keşfetmiş ve bununla beraber büyümede büyük bir ivme yakalamıştır.

OUR VISION

Mastering principles of developing life facilitating creative designs and making a difference to the world.

OUR MISSION

For ones, who desire to create a difference in their solutions, we convert with our qualified team, having adapted universal values, eco-system friendly designs into innovative products using advanced technologies, and offer saving to lives.

OUR BASIC VALUES

Our customers are our business partners; we provide them quality and make trust sustainable.

We work adapting universal values with team spirit, high sense of belongingness, quick and qualified, always smiling faces, producing with high spirits, paying importance to its personal development and solution focused.

We adopt a management understanding, which values its employees training and motivation, being fair, transparent and respecting different ideas, open to communication and criticism, self-consistent, innovative, effort respecting, approaching all stakeholders as business partners.

Paying attention to R&D with an analytic and systematic perspective we use advanced technology, push our limits, and owing to our qualified personnel we do not adapt hard working, but smart working.

Starting with ourselves, in order to plant in the society and world we live the utilization of nature-friendly the importance of using nature friendly products and the benefits ensured thereby, and to leave the future generation a more viable world, social responsibility projects are of high importance to us.

VİZYONUMUZ

Yaşamı kolaylaştıran yaratıcı tasarımlar geliştiren ve dünyayı değiştiren ilklere EGEMEN olmak.

MİSYONUMUZ

Çözümlerinde fark yaratmak isteyenlere, evrensel değerleri benimseyen yetkin ekibimiz ile eko sistemi önemseyen tasarımları ileri teknolojiyi kullanarak inovatif ürünlere dönüştürüyor ve hayatlara tasarruf sunuyoruz.

TEMEL DEĞERLERİMİZ

Müşterilerimiz bizim iş ortağımızdır, onlara kaliteyi ve güveni sürdürülebilir kılarız.

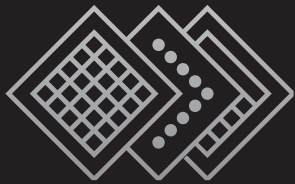

Evrensel değerleri benimsemiş, takım ruhuna sahip, aidiyeti yüksek, çevik, yetkin, yüzü her daim gülen, keyifle üreten, kişisel gelişimini önemseyen çözüm odaklı çalışanlarız.

Çalışanların eğitimine ve motivasyonuna değer veren, adil, şeffaf, farklı fikirlere saygı duyan, iletişime ve eleştiriye açık, istikrarlı, yenilikçi, emeğe saygılı, tüm paydaşlarına iş ortağı mantığı ile yaklaşan, biz yönetim anlayışı ile çalışırız.

Analitik ve sistematik bakış açısı ile ar-geye önem vererek ileri teknolojiyi kullanır, sınırlarımızı zorlarız, yetişmiş personelimiz sayesinde çok çalışmayı değil akıllı çalışmayı benimseriz.

Kendimizden başlayarak, yaşadığımız topluma ve dünyaya, doğaya dost ürün kullanımının ve sağladığı tasarrufun önemini aşılacak ve gelecek nesillere daha yaşanılabilir bir dünya bırakmak için sosyal sorumluluk projelerine önem veririz.

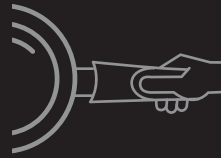

COATING

The 3-layer of marbled coating prevents food from sticking to the pan.

This coating is more durable, than the usual ones.

HANDLE

The handle is soft-touch, heat resistant and it is not in direct contact with the pan, so that does not heat up during use. Due to being holey, it is easy to store hanging.

ECO FRIENDLY

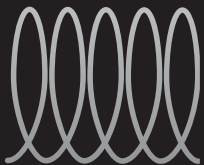

All our coating does not contain harmful substances. PFOA, LEAD & CADMIUM free.

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

Strong, durable coating, which makes your cookware more resistant for a longer period with forming only one protective layer on its surface. This coating is 3 times more resistant than a regular one.

HANDLE

This design combines the durability of stainless steel and the load capacity with the heat-resistance and easy handling of a silicone layer. The handle gives you a comfortable, soft feeling without burning your hands during cooking. Cookware with this kind of handle can also be placed in the oven.

ECO FRIENDLY

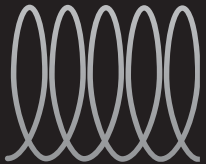

All our coating does not contain harmful substances. PFOA , LEAD & CADMIUM free .

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

Thanks to the non-sticky nature of stainless steel, these uncoated pots and pans work as well as the coated ones.

HANDLE

The waterproof quality protects it from corrosion, the hardness of the material provides a firm grip and its durability ensures a longer lifespan. Thanks to the riveted joint, it does not transfer heat, making it a practical and elegant piece of your kitchen. Cookware with a stainless steel handle can be placed in the oven.

ECO FRIENDLY

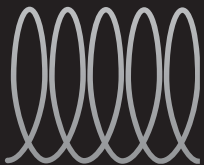

All our coating does not contain harmful substances. PFOA , LEAD & CADMIUM free .

MATERIAL

This item family cookware body is made of 18/10 stainless steel with very high thermal conductivity

INDUCTION

Our full induction cookware has a 10% stronger induction socket, you can cook your meals with reducing time and energy by 45%.

PACKAGING

Our massive, stainless steel cookware require durable packaging, which, at the same time, have a professional design and represent our product very well in every way.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent.

Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

The 3-layer of marble coating prevents food from sticking to the pan.
This coating is more durable, than the usual ones.

HANDLE

The handle is soft-touch, heat resistant and it is not in direct contact with the pan, so that does not heat up during use. Due to being holey, it is easy to store hanging.

ECO FRIENDLY

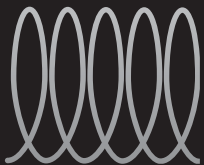

All our coating does not contain harmful substances. PFOA , LEAD & CADMIUM free .

COATING

Strong, durable coating, which makes your cookware more resistant for a longer period with forming only one protective layer on its surface. This coating is 3 times more resistant than a regular one.

HANDLE

The waterproof quality protects it from corrosion, the hardness of the material provides a firm grip and its durability ensures a longer lifespan. Thanks to the riveted joint, it does not transfer heat, making it a practical and elegant piece of your kitchen. Cookware with a stainless steel handle can be placed in the oven.

ECO FRIENDLY

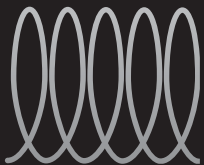

All our coating does not contain harmful substances. PFOA, LEAD & CADMIUM free .

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

The 3-layer of marble coating prevents food from sticking to the pan.
This coating is more durable, than the usual ones.

HANDLE

The handle is soft-touch, heat resistant and it is not in direct contact with the pan, so that does not heat up during use. Due to being holey, it is easy to store hanging.

ECO FRIENDLY

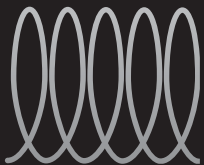

All our coating does not contain harmful substances. PFOA , LEAD & CADMIUM free .

COATING

Strong, durable coating, which makes your cookware more resistant for a longer period with forming only one protective layer on its surface. This coating is 3 times more resistant than a regular one.

HANDLE

The handle is soft-touch, heat resistant and it is not in direct contact with the pan, so that does not heat up during use. Due to being holey, it is easy to store hanging.

ECO FRIENDLY

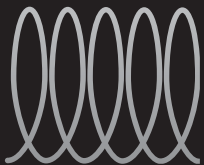

All our coating does not contain harmful substances. PFOA, LEAD & CADMIUM free.

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

Strong, durable 3D coating, which makes your cookware more resistant for a longer period with forming only one protective layer on its surface. This coating is 5 times more resistant than a regular one.

HANDLE

The waterproof quality protects it from corrosion, the hardness of the material Provides a firm grip and its durability ensures a longer lifespan. Thanks to the riveted joint, it does not transfer heat, making it a practical and elegant piece of your kitchen. Cookware with a stainless steel handle can be placed in the oven.

ECO FRIENDLY

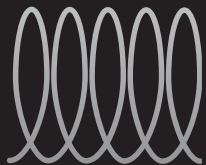

All our coating does not contain harmful substances. PFOA , LEAD & CADMIUM free .

MATERIAL

This item family cookware body is made of 18/10 stainless steel with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. The display package gives unique feeling for the enduser. This special packaging helps to sale in stores a lot

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

The 3-layer of marble coating prevents food from sticking to the pan.
This coating is more durable, than the usual ones.

HANDLE

The most cookware of Granit Diamond Line has detachable handle, and it can be found detachable handle type cookware among also the frypans. It follows that the most cookware of that line can be placed in the oven.

ECO FRIENDLY

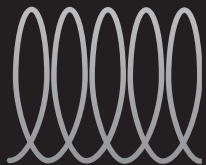

All our coating does not contain harmful substances. PFOA, LEAD & CADMIUM free.

MATERIAL

Our design die-cast aluminum products have the best heat conduction ability, with this our foods can be prepared faster and easier.

INDUCTION

Our full induction cookware has a 10% stronger induction socket, you can cook your meals with reducing time and energy by 45%.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

Strong, durable coating, which makes your cookware more resistant for a longer period with forming only one protective layer on its surface. This coating is 3 times more resistant than a regular one.

HANDLE

The handle is soft-touch, heat resistant and it is not in direct contact with the pan, so that does not heat up during use. Due to being holey, it is easy to store hanging.

ECO FRIENDLY

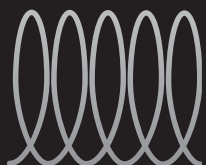

All our coating does not contain harmful substances. PFOA, LEAD & CADMIUM free.

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

Strong, durable coating, which makes your cookware more resistant for a longer period with forming only one protective layer on its surface. This coating is 3 times more resistant than a regular one.

HANDLE

The handle is soft-touch, heat resistant and it is not in direct contact with the pan, so that does not heat up during use. Due to being holey, it is easy to store hanging.

ECO FRIENDLY

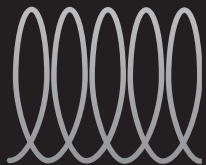

All our coating does not contain harmful substances. PFOA, LEAD & CADMIUM free.

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

The 3-layer of marble coating prevents food from sticking to the pan.
This coating is more durable, than the usual ones.

HANDLE

The handle is soft-touch, heat resistant and it is not in direct contact with the pan, so that does not heat up during use. Due to being holey, it is easy to store hanging.

ECO FRIENDLY

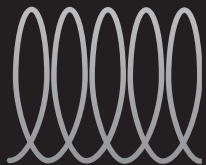

All our coating does not contain harmful substances. PFOA , LEAD & CADMIUM free .

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

The 3-layer of marble coating prevents food from sticking to the pan.
This coating is more durable, than the usual ones.

HANDLE

The handle is soft-touch, heat resistant and it is not in direct contact with the pan, so that does not heat up during use. Due to being holey, it is easy to store hanging.

ECO FRIENDLY

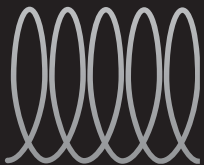

All our coating does not contain harmful substances. PFOA , LEAD & CADMIUM free .

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

The 3-layer of marble coating prevents food from sticking to the pan.
This coating is more durable, than the usual ones.

HANDLE

The handle is soft-touch, heat resistant and it is not in direct contact with the pan, so that does not heat up during use. Due to being holey, it is easy to store hanging.

ECO FRIENDLY

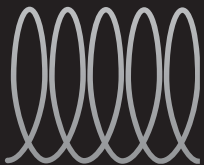

All our coating does not contain harmful substances. PFOA, LEAD & CADMIUM free.

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

The 3-layer of marle coating prevents food from sticking to the pan.
This coating is more durable, than the usual ones.

HANDLE

The handle is soft-touch, heat resistant and it is not in direct contact with the pan, so that does not heat up during use. Due to being holey, it is easy to store hanging.

ECO FRIENDLY

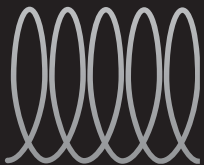

All our coating does not contain harmful substances. PFOA, LEAD & CADMIUM free.

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

A significant part of these high-quality cast-iron cookware has extremely well worked enamel coatings. Thanks to this traditional method, it can be calibrated for a long lifetime, even at high temperatures the cookware won't be cracked, and remains durable even after several baking.

HANDLE

Products from this product line have a solid, durable handle, which is cast together with the body, with this they are tightly attached and will not break off or harm any damage due to the excellent workmanship.

ECO FRIENDLY

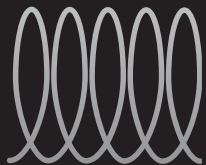

All our coating does not contain harmful substances. PFOA , LEAD & CADMIUM free .

MATERIAL

The cast iron products made with treatment of materials processing based on many years of tradition and experience will never lose their value, it remains durable and solid even after several baking. Thanks to its good heat transfer ability, the food is contained by it is always tasty, healthy and maintains its temperature for a long time.

INDUCTION

Thanks to its excellent induction ability it can be used perfectly on induction cookers, due to its good heat transfer, you can cook your meals at constant temperature with less time and energy loss.

PACKAGING

Our massive, heavy cast iron cookware require durable packaging, which, at the same time, have a professional design and represent our product very well in every way.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Thanks to its diverse design and colour scheme, it can be integrated into other product lines, at the same time, due to the specialty of its material and workmanship, it can be sold independently as well.

COATING

The 3-layer of marble coating prevents food from sticking to the pan.

This coating is more durable, than the usual ones.

HANDLE

This design combines the durability of stainless steel and the load capacity with the heat-resistance and easy handling of a silicone layer. The handle gives you a comfortable, soft feeling without burning your hands during cooking. Cookware with this kind of handle can also be placed in the oven.

ECO FRIENDLY

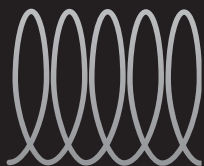

All our coating does not contain harmful substances. PFOA , LEAD & CADMIUM free .

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.

PACKAGING

All our packaging is made of high quality material. Free protector is given to single items, which makes the storage compact and safe. This cookware can be placed together with it without scratching the coating.

DESIGN

All our product is made by european designer team, according to individual industrial design. The individual design is always protected by patent. Thus the product of our company is always unique in market.

360° SOLUTION

Our company has a comprehensive product range from this product line in electrical and mechanical devices, knives, cook and bakeware and other kitchen and household accessories.

COATING

Strong, durable coating, which makes your cookware more resistant for a longer period with forming only one protective layer on its surface. This coating is 3 times more resistant than a regular one.

HANDLE

The waterproof quality protects it from corrosion, the hardness of the material provides a firm grip and its durability ensures a longer lifespan. Thanks to the riveted joint, it does not transfer heat, making it a practical and elegant piece of your kitchen. Cookware with a steel handle can be placed in the oven.

ECO FRIENDLY

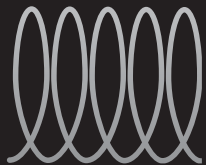

All our coating does not contain harmful substances. PFOA , LEAD & CADMIUM free .

MATERIAL

This item family cookware body is made of forged aluminum with very high thermal conductivity

INDUCTION

This enhanced turbo induction bottom is able to achieve the same efficiency using much less energy, therefore the pot is much more energy efficient and environmentally friendly, in addition to being extremely cost-effective.
